# Wheelchair Seat Belt

Attaching the seat belt

REQUIRED:

1x Pozi screwdriver

- Use a screwdriver to remove the lower backrest canvas (1) and lower side panel (2) retaining screws.

- Insert the seat belt between the backrest canvas and the frame (3).

- Secure the seatbelt Velcro loop (4).

- Reinstall the lower backrest canvas and lower side panel retaining screws using a screwdriver (5).

- Repeat on the other side.

- Adjust the user seatbelt to the desired length (6).
